Planning is easy. Four simple steps to a new bathroom

Washbasin and taps

Start by considering the space you have for the washbasin – the hub of the bathroom. When you've selected your washbasin pair it with your favourite mixer taps.

Washstand and legs

Choose a washstand that fits the washbasin and with the storage capacity you need. Then choose legs in the style you prefer, and in the right height for your washbasin.

Cabinets and mirrors

Choose your wall storage. Wall and mirror cabinets for easy access and a good overview, and high cabinets for things you use less often.

Organisers

Turn your bathroom into the ultimate functional workspace, with clever organisers - the perfect way to keep track of smaller items.
